Isn't it wonderful? This discovery of

The anarchy bills presented in Conby murder.

When President Roosevelt looks over

If there is a more unhappy man it the halls of Congress than Sepator death of the President show him to can condone. Wellington is lonesome and it would appear that he deserves struggle which will be worthy of its

Every indication points to a settlement of the Republican Territorial Every indication points to a settlecommittee proxy question along the lines of good sense and good party management. Limiting proxies to members of the committee and limiting the number held by one member will satisfy every honest party man and secure a return of confidence which who served through the Philippine contentions of the past have caused to campaign and returned to his home in go wandering to other political fields.

Endeavors to show that advocacy of the President's position in 'hinese imoffice, her name and address will be opposition to Chnese exclusion is sugar politics, do not commend themselves kindness was shown while on their to the honest men of this Territory. There is not a man, woman or child in this Territory who is not dependent on sugar production and profitable sugar production. To maintain that an advocate of Chinese exclusion is doing anti-sugar politics is nonsensical if not malicious. It is an attack upon the intelligence of honest men and an effort to impeach their motives.

THAT INDUSTRIAL "INVASION"

New light is shed on the "American invasion of England." that is now receiving so much attention, by Robert England. To put it briefly from Porter's standpoint the surplus American funds are going toward the development of British industry and although ment of British industry and although
Americans may draw a large share of
the dividends the British workman is
nevertheless profiting largely by the
Priority 2000 very large to a King or chieftain who

Telegony or infection—Referring to the dividends the British workman is

English brains and capital to the ment United States and it is now claimed by
Mr. Porter that England's superiority

Inthis rude tomb was a gigantic vase of pottery, and within the vase was a as a distributing center, its freedom of trade and its better shipping facilities the same metal, the box decorated with

are all on the American side and are ing towns.-New YorJk Times. due to the failure of our legislation to keep pace with the steadily increasing demands of our extending foreign com-

merce. Three legislative failures are cited as having an important bearing on the migration to the old country First, the failure of the United States to give a charter for an international bank established by American capital; second, the failure of Congress to pass the reciprocity treatles, especially the treaty with France, and third, the failure of the ship subsidy bill. These measures all bear on our friendly standing in the foreign markets and our ability to ship goods under equally favorable circumstances with our competitors. It is fast becoming apparent to the most indifferent citizen that the great manufacturing Industries built up by the protective tariff are fretting Metcalf, and Thomas Metcalf, ceste qui under the restraints and the retailatory trust, has brought a similar suit measures which are a direct result of against the same defendants, the land the tariff. The industrial leaders are being the same as in the first case. practically becoming advocates of free

subjects for reciprocal measures. The manufacturers' chief markets are in the agricultural countries which seek favorable consideration for their chief to bis heirs. Mr. Fitch is the attorney for the plaintiff in both of the suits brought by Frank God-Thurston's organ of spite that Attorney the agricultural countries which seek General Knox's splendid vindication favorable consideration for their chief frey. didn't mean what it said. It is to products. This tendency toward reclprocal free trade is the greatest danger Hawaii has to face in the legislation to come before the present United States gress indicate that there will be no Congress and for many succeeding sesperfunctory methods hereafter in deal- sions, for the fight for reciprocity will ing with the advocates of government not end with this session nor the next, asleep at the time. A charge of vadustry and framers of national poli-cies are not blind to the facts of this the Wyoming lands as is spitefully sug-gested by Thurston's organ, he will generally. The contest between the tried to explain that they had been find thousands of acres of land fit only manufacturer and the agriculturalist for grazing. The lands in Hawaii to will ever be a sharp one and will dewhich the President refers will pro-duce anything from weeds to orange keep the importance and the justice of told of how the defendants had been our demands before the American people. The time may not be far distant places for several nights past and that when the gist of Porter's remarks will settled the matter. become the war cry of the vast manu-Wellington, he has yet to be heard facturing interests and the demand will from. Wellington's remarks after the be for reciprocity to save American capital to the American field. This be possessed of a littleness of character may seem a far cry into the future but which no man of high or low station if it is once taken up this Territory ing, the following officers were elected will have to gird up its loins for a best metal

Wallace, Senior Warden; C, S. Hall. Junior Warden; David Dayton, Sr. Treasurer; Joshua D. Tucker, Recorder. Mr. Gedge has the appointment of five other officers as follows: Prelate Warder, Standard Bearer, Sword Bearer and Sentinel. He has not picked out

Study of Variation in Animals. Professor Ewart has lately reported the results of his experimental studies on the breeding of animals, treating the various factors separately primary cause of variation is the ef-iect of external influences acting di-rectly upon the germ cells.

the character of the offspring which resembles more and more that of the younger and more vigorous parent. Ripeness of the germ cells—The off-spring resulting from the union of equally ripe germ cells differs from the offspring developed from the con-jugation of ripe and unripe cells and still more from that arising from the union of fresh and overthes cells

by a diminuation of the vitality of the soma, but there is no evidence that they are so modified as to transmit definite modifications to the offspring.

printed on the germ cells.
Intercrossing and interbreeding—in-

tercrossing tends, in general, toward reversion, and never results in the production of characters absolutely most infinite diversity of character ofispring, and if interbreeding delicate, of impalied fertility and, sin-gularly enough, frequently white or partly white in color. I a variety is more vigorous than the parent form intercrossing will not swamp that form but will result in producing more individuals representing it.

Maternal impressions—No evidence was found to show that such impres-

was found to show that such imprebions affect the offspring in any way.

Direct action of the environment and use; inheritance—Neither of these

the celebrated case reported by Lord Morton, Professor Ewart ascribes the result rather to reversion than to in fection. His own observations show that twelve mares after producing six

On good authority soldiers like best to be officered by gentiemen, but they have their choice of the type. Of the leader of the Light Division. An incident in his career during one of the Wellington wars shows him to have been rich in that justice which commands respect for equals and loyalty from interiors; in a word, be kept discipline without regard to rank. His divisions were crossing a ford on one of the Spanish morches, and an officer to keep his breeches dry, rode through on a soldier's back. Crawford observed the thing with disgust, and in a minute was splashing through the water after them both.

"Put him down, sir!" he shouted. Put him down! I desire you to put that officer down instantly.
"Rerturn back, sir," Crawford said to the officer, "and go through the

water like the others. I will not al low my officers to ride upon the men through the rivers; all must take their share alike."-Youth's Com panion.
